EDUCATION

- Bharati Vidyapeeth College Of Engineering** Pune, India
Bachelor of Technology - Information Technology; CGPA: 9.6
July 2023 - July 2027

SKILLS SUMMARY

- Programming Languages:** Java, C, Python, JavaScript, SQL, Bash
- Web & Frontend:** HTML5, CSS3, React, Bootstrap, EJS, Axios
- Backend & APIs:** Node.js, Express.js, Supabase, JWT, OAuth2, Nest.js, gRPC
- Databases:** MySQL, PostgreSQL, MongoDB, SQLite
- Cloud & DevOps:** AWS (EC2, S3, Lambda, Glue), Docker, Git, GitHub, Postman, GCP(Cloud Run, Storage, SQL)
- System Design:** Microservices, Load Balancing, Caching, Sharding, CAP Theorem
- Soft Skills:** Communication, Problem Solving, Team Collaboration, Time Management, Mentorship, Patience

EXPERIENCE

- CurlScape Solutions Pvt Ltd** Pune, India
Full Stack Developer Intern April 2026 - Present
 - AI-Assisted Development Workflow:** Worked in an **AI-native codebase** using **Claude Code** as an engineering assistant, leveraging **200+ custom skills and workspace automations** to ship features end-to-end from design through production deployment, averaging **9+ active hours per day**.
 - Production Engineering & DevOps:** Managed the full deployment lifecycle across a **Go + TypeScript microservices monorepo** (20+ services): authored **GitHub PRs**, resolved CI/CD failures, applied **database migrations** to staging before promoting to production on **GCP Cloud Run**, and managed secrets via **GCP Secret Manager**. Tracked all work in **Jira** and coordinated across teams on **Slack**.
 - Product & Client Interaction:** Contributed to an AI-powered **recruiter management platform** for a **Europe-based client**, covering candidate sourcing, AI-driven interviewing, and GDPR-compliant data handling. Led direct **client-facing communication** on feature requirements and incident resolution, owning deliverables from ticket through staging validation to production.
- LocalStreet RetailTech Pvt Ltd** Remote, India
Backend Developer February 2026 - April 2026
 - AI-Driven Campaign Analytics Platform:** Designed and implemented a **NestJS + gRPC microservice pipeline** enabling shopkeepers to ingest offline order datasets (CSV/XLSX via **AWS S3**), perform **AI-powered column mapping**, and generate targeted customer pools using frequency and lifetime value analytics while following **SonarQube-driven code quality and PR review workflows**.
 - Intelligent Marketing Campaign Engine:** Built end-to-end backend for campaign creation with **LLM-generated WhatsApp promotions** and discount recommendations, designing a campaign pipeline capable of **targeting thousands of customers per campaign**.
 - WhatsApp Conversational Ordering System:** Contributed to a **WhatsApp-based ordering platform** enabling customers to place orders directly via chat, implementing **RAG-based preference retrieval** using **Redisearch** to persist and fetch contextual user data such as saved addresses and ordering preferences.
- Elite HQ** Remote, India
Founding Full Stack Engineer October 2025 - February 2026
 - Resume Scoring System:** Redesigned resume parsing engine processing **1,000+ resumes in parallel**, reducing ranking time from **45 minutes to 100 seconds (27x improvement)** with **90%+ accuracy**.
 - Voice AI Outreach:** Built **Vapi.ai integration** for automated context-aware candidate calls with call recordings, transcripts, and AI sentiment analysis for intelligent hiring feedback.
 - Monetization & Integrations:** Integrated **Apollo.io**, **Clado APIs** (800M+ profiles), and **Razorpay** with subscription management, and credit deduction system.
 - Video Assessment Platform:** Architected **video.elitehq** for university MBA admissions (Masters Union), enabling **browser-to-GCP direct uploads** for videos up to 500MB with **Google Gemini 3.0 Pro** multimodal AI evaluation on 6 dimensions.
- ForesightFlow Platform** Freelance, Remote
Full Stack Engineer November 2025 - March 2026
 - Microservices Architecture & Rapid Delivery:** Architected and delivered production-ready **AI-powered retail analytics platform in 1 month** with **5 microservices** (ETL, Analysis, Chatbot, Market Analysis, Strategy) deployed on **GCP Cloud Run**.
 - Real-Time Analytics & KPI Engine:** Built **97-KPI calculation engine** with Next.js dashboards featuring **WebSocket real-time sync**, processing **20,000+ row datasets in under 2 minutes** achieving **100% referential integrity** across Sales, Inventory, Product, and Financial modules.
 - AI-Powered Intelligence Layer:** Integrated **Google Gemini API** for conversational analytics, automated insights generation, market benchmarking, and 90/365-day strategic planning with **natural language query** support and SQL translation.

- **Arealis Networks Pvt Ltd.** Pune, Maharashtra
Full Stack Data Engineering Intern June 2025 - November 2025
 - **Event-Driven Architecture Design:** Architected **scalable event-driven system** using **AWS Lambda and Glue** for automated ETL workflows with **real-time KPI calculations**, reducing manual effort by **80%**.
 - **Client Leadership & Product Strategy:** Led **sprint reviews and client interactions**, presented technical architecture and progress, gathered stakeholder feedback, and aligned roadmap with business requirements.
 - **Product Representation & Business Development:** Represented Arealis at **E-Summit 2025 (IIT Bombay Startup Expo)**, demonstrated **AI-powered analytics platform** to **50+ industry attendees**, and generated qualified leads.

VOLUNTEER EXPERIENCE

- **Google Developer Group (GDG) On Campus – Organizer** Pune, India
Technical Training & Community Building Aug 2025 - Present
 - **Impact:** Conducted sessions on AI, Cloud, and Full-Stack impacting **500+ students**; organized campus hackathon with **150+ participants** and MetaMask meetup for **60+ developers** as **MetaMask Ambassador**.
- **Hackathons & Tech Community** Multiple Locations
Active Participant 2024 - 2025
 - **Achievements & Engagement:** **6+ national hackathons:** JPMC Code for Good Finalist(Top 1,500/50,000+), 100x Engineers (Top 100/3,500+), Inerve 9 (Top 31/2,500+), Imagine Hackathon 2025(Top 75/3,000+); **30+ tech meetups** on **GenAI, Cloud, Blockchain, and Full-Stack Development**.
